

## **NUI Awards Sustainability Statement**

NUI is committed to supporting and promoting the UN Sustainable Development Goals. This commitment is not just to those goals in areas related to NUI's core mission such as education, innovation, justice and equality but the wider goals related to NUI's day to day business such as those related to the environment, consumption of energy and other resources, the workplace and climate action. To realise this commitment, the NUI team are working to reduce NUI's use of non-renewable resources and energy while conserving NUI's historic built environment.

NUI is reviewing all practices and policies with the aim of further embedding the UN Sustainable Development Goals into all practices and policies. NUI is committed to creating and maintaining a research-informed culture of sustainability. NUI is committed to establishing a measured and documented sustainability implementation process.
