## Section 2: Terms and Conditions of the Travelling Doctoral Studentship Tenure

### 9. General Conditions

- 9.1 The Studentship holder's first duty is successful completion of the Studentship for which they have been awarded funding.
- 9.2 The Studentship is held subject to these terms and conditions and any supplementary conditions set out in the Studentship offer. If any of these terms and conditions are breached, the NUI Senate reserves the right to suspend or terminate the Studentship and may require reimbursement of such payments as have already been made. See also Section 9.13.

**9.3** These terms and conditions will be governed by and construed in accordance with the laws of Ireland. All parties will expressly and irrevocably submit to the jurisdiction of the Irish courts.

**9.4** It is the holder's responsibility to inform the NUI Awards team of any change of address, telephone number, or email address within a month of any change.

**9.5** Conduct of Research in Approved Venue

A Studentship will be held upon the condition that the holder, during each year of their tenure thereof, applies themselves to research in the subject area in which they obtain a Studentship or in some cognate line of research approved by Senate. Such research shall be pursued wholly or partly outside Ireland and under the direction of a Professor/Head (or nominated supervisor) in the relevant Department/School of a university or appropriate venue as approved by the Senate or by such authority as the Senate may direct.

**9.6** The approved venue is responsible for ensuring that the holder has access to effective procedures for resolving problems that may arise, preventing or inhibiting the holder from effectively carrying out the research and primary duties associated with the Studentship.

**9.7** If the holder experiences serious problems with academic supervision or any other academic matter that cannot be resolved at the department/school level, the holder should follow the approved institution's grievance procedures. Should these problems prove intractable, the holder should inform the NUI Registrar directly.

**9.8** If the holder cannot pursue their research in accordance with these terms and conditions, the holder and their supervisor must inform the NUI Registrar and the relevant office(s) in the institution. The holder must do this no later than two weeks of such a situation arising. The Senate will have regard to the usual conventions of the institution in which the holder is based; however, it reserves the right to suspend or terminate the Studentship.

**9.9** Studentship Payments

Payments are advanced quarterly for each year of the tenure of the Studentship in accordance with the terms of the fixed-purpose contract with NUI. Where payments are made in foreign currency, they will be made at the prevailing exchange rate on the date of payment.

**9.10** Taxation

Successful applicants must complete the Irish Revenue Scholarship Exemption Declaration Form, which is retained on file by the National University of Ireland for Revenue review if required.

Applicants are invited to seek Revenue clarification in relation to compliance with Irish laws and regulations on taxation if required.

Regulations were signed on 10 June 2011 that require Government Departments, all bodies established under statute and any other body involved in the disbursement of public funds to make annual returns to Revenue, providing details of all payments made in each calendar year, subject to certain conditions. The legislation that allowed for these regulations to be made is Section 891B Taxes Consolidation Act 1997. Travelling Doctoral Studentships and other similar payments are subject to these provisions and, accordingly are returned to Revenue annually.

### **9.11 Postponement of Tenure**

In special circumstances, the Senate may consider an application from the recipient of a Travelling Doctoral Studentship for the postponement of the tenure of the Studentship for a period of not more than one year. Such applications must be accompanied by a letter supporting the postponement from the Professor/Head of Department/School (or nominee) in the institution where the holder is registered for the doctoral degree.

### **9.12 Change of Venue**

Holders of Travelling Doctoral Studentships are expected to complete their research at the institution originally proposed in their application. It is accepted that in exceptional circumstances there may be a call for a change of location or supervisor. In these cases, the holder, and the proposed new supervisor and/or institution representative must write to the NUI Registrar stating the case for change. The Registrar will examine the submission based on its merits and respond with a decision on whether funding will continue in the new circumstances.

### **9.13 Power to Withdraw and Right of Appeal**

The Senate reserves the right to withdraw the award of a Studentship if, in the opinion of the Senate, the holder was guilty of any misconduct in connection with any examination for, or used unfair means to obtain the award of any such Studentship, or otherwise fails to adhere to the General Conditions as outlined above. In such circumstances, the holder of the Studentship shall have a right of appeal to the NUI Registrar who shall refer the appeal to an independent third party.

### **9.14 Studentship Holder in Receipt of Other Funding:**

Where a candidate is in receipt of funding from other source(s), details should be included with the application or, where appropriate, made known in advance of the interview.

Where the value of other funding held by a candidate is substantial, this may be considered by the Interview Panel when making recommendations to the Senate for the awarding of a Travelling Doctoral Studentship.

Candidates must inform NUI of any existing funding or additional funding offers throughout the duration of the application process.

Recipients of Travelling Doctoral Studentships must inform NUI of any other funding obtained before or during the tenure of the Studentship. This information must also be recorded in the appropriate six-monthly reports from the supervisor. Where a recipient has other substantial funding accepted before or following the award of the Studentship, the Senate may consider the value of the Studentship to be awarded.

## **10. Responsibilities of the Supervisor**

During the tenure of a Travelling Doctoral Studentship, the holder may carry out research in a range of approved venues under the direction of more than one supervisor. However, the responsibilities listed below refer to the principal supervisor appointed in the institution where the holder is registered for the doctoral degree. In these circumstances, the supervisor should be cognisant of institutional policies regarding doctoral supervision.

- 10.1** The supervisor should have regular contact with the Studentship holder and should be based in the same institution where the holder is registered for the doctoral degree.

- 10.2** The supervisor shall inform the NUI Awards team in circumstances where the holder does not commit appropriate time and effort to the Studentship.

## **11. Review of Progress**

The Senate is committed to ensuring effective progress for the duration of the Travelling Doctoral Studentship and monitoring the research performance of the holder.

- 11.1** Six-Monthly Reports: The Supervisor must submit a report every six months confirming that the holder of the Studentship is satisfactorily pursuing the research work of their Studentship. Further payment of Studentship instalments may be withheld if the Senate considers such a report unsatisfactory. Failure to supply these reports may result in the payment of the Studentship being suspended until such a time as they are received. NUI will provide a report form for this purpose.
- 11.2** Where a progress report is deemed unsatisfactory, the NUI Awards team will liaise with the Studentship holder and supervisor in the first instance to seek clarification of the issues that have arisen and agree on an appropriate course of action.
- 11.3** Where a satisfactory course of action cannot be agreed upon, the Senate reserves the right to approve the appointment of an independent third party, as recommended by the NUI Awards team, to evaluate the Studentship in accordance with the aims and objectives outlined in the original proposal. In these circumstances, the holder and their supervisor must provide an account of the progress made to date. See also section 9.13 above. Following the review, the Senate will then provide feedback to the holder indicating that the Studentship will be renewed for a further limited period, after which the holder's progress will be reviewed again or terminated.

## **12. Ethics**

- 12.1** The Senate will not award funding for research activity prohibited by law in Ireland and/or in the legal jurisdiction where the holder will be based during the tenure of the Travelling Doctoral Studentship.
- 12.2** Studentship holders may be required to confirm that appropriate ethical approval has been obtained to carry out their research project from the relevant approval or regulatory body at the institution where they are registered for the doctoral degree. This regulation may also apply to candidates in advance of the awarding of a Studentship.
- 12.3** Ethical issues should be interpreted broadly, consistent with policies and guidelines in the NUI constituent universities. They may include but are not limited to, appropriate codes of practice; the involvement of human participants, tissue, or data in research; the use of animals; research that may result in damage to the environment; and the use of sensitive economic, social, or personal data.

## **13. Protection of Intellectual Property**

- 13.1** The Senate will not make any claim to the intellectual property arising from the Travelling Doctoral Studentship.
- 13.2** The responsibility for protecting and managing any intellectual property during the tenure of the Travelling Doctoral Studentship will rest with the institution where the

holder is registered for the doctoral degree and must be in accordance with national and/or international guidelines as appropriate.

## **14. Acknowledgement of NUI Support**

The holder of a Travelling Doctoral Studentship must acknowledge receipt of NUI support in all publicity relating to the research undertaken. The publicity may include but is not restricted to the following: letterheads, office signs, media appearances, press releases, public lectures, interviews, conferences, publications, monographs, print materials, social media and online materials, including email signatures, television and radio advertisements, websites, film, and video/audio recordings associated with or arising from the research undertaken. Where possible, NUI's logo should be included in any such acknowledgement.
